Spanish Era began Jan 1, 388c

Jan 1, 716 AUC (38 BC) Rome Chronologists

The ERA of SPAIN was based on an Easter cycle that began on Jan 1, 716 AUC (38 BC), marking the completion of the Roman conquest of Spain. FIRST recorded in the 5th Cen AD, it was in general use in Visigothic Spain of the 6th & 7th centuries and, after the Arab invasions, in the unconquered Christian Kingdoms in the north of

the Slaves Province. It was abolished in
favor of the Ea of the Association in
1180, in Aragon in 1350, in Castile
in 1383, and in Portugal in 1422. The
Ea of the Province, commencing 33 yrs after
that of the Association enjoyed a short
reign, meeting in 11th Cen. France.
